

2018 Landscape & Grounds Maintenance Short Course

Wednesday, February 7

Galls and Scales of Trees and Woody Plants – Bonus Topic: Jumping Worms - Overcome the challenge of controlling insect pests that cause scales and galls by learning how to time applications at the stage in pest's life cycle when insecticide will be most effective. *P.J. Liesch, Entomologist, UW-Extension*

Traditional, Sculpted....and Native! Saving our Natural Heritage with Conventional Landscape Design - Learn an aspect of landscape design that provides respect of place and vernacular while utilizing native plants in place of foreign species. *John Mariani, RLA, LandServe, LLC*

Wednesday, February 14

The Fundamentals of Fertilization - Understand how and when to fertilize different turf species for optimal results. *Doug Soldat, Turfgrass and Urban Soils Specialist, UW-Extension*

Effective, Economical and Practical IPM for Landscape Professionals - Attendees will learn about the practical application of Integrated Pest Management techniques that can be used to effectively manage pests in the landscape. *Dr. Chris Williamson, Turfgrass and Ornamental Entomologist, UW-Extension*

Wednesday, February 21

Proven Plants from the Chicago Botanic Garden Trials - By assessing ornamental traits, adaptability to soil and environmental conditions, and disease/pest issues, Richard will share research evaluations which determined what he considers some of the best garden plants for the Upper Midwest. *Richard Hawke, Plant Evaluation Manager, Chicago Botanic Garden*

Flowering Shrubs for Year Round Interest - Learn about the UW-Madison Arboretum's favorite flowering shrubs and how to best maintain them. *David Stevens, Curator, Longenecker Horticultural Gardens*

Wednesday, February 28

Commonly Misdiagnosed Diseases (and what they really are) - Learn the procedure for diagnosing plant diseases and how to avoid making common mistakes which may lead to a misdiagnosis. *Brian Hudelson, Director, Plant Disease Diagnostic Clinic, UW-Extension*

Managing Weeds in the Landscape - An overview of landscape herbicides, their use and effectiveness, including a focus on the safety of glyphosate. *Mark Renz, Weed Specialist, UW-Extension*

Registration deadline: January 24, 2018 (or when full)

Dear Landscape Professional,

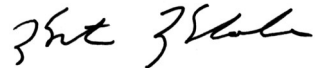

Join other horticulture professionals in learning up-to-date science-based information to help you increase the economic and environmental sustainability of landscapes you care for and your business.

The Waukesha registration fee for all four sessions is \$65. If you are interested in attending single sessions, the cost is \$20 per session.

If you wish to pay with a credit card, please fill out the information on the registration form, or write "call for card number." There will be NO REFUNDS.

If you have any questions, please contact Lisa Boyer at lboyer@waukeshacounty.gov or 262-548-7775.

Sincerely,

Kristin Krokowski
Commercial Horticulture Educator
